## ENTHUSIASTIC OVER PROSPECT

Stimulus Afforded by  
the Railroad

Southwestern Part of Yavapai  
County Coming Rapidly to the  
Front.

Dr. O. L. Geer of Martinez was in the city yesterday on business and is more enthusiastic than ever about the mining section west of Martinez in which himself and many others are interested. His greatest enthusiasm is about the Arizona & California railroad which is fast changing from a dream of past years to a present reality, says the Phoenix Republican. He says that grading is progressing at the rate of nearly a mile a day and track-laying is also in progress in a way that is entirely pleasing. He says the company expects to have forty miles of railroad completed by the first of March and he has no doubt that its building will continue rapidly until connection is made with the main line of the Santa Fe in California. The thing most needed in that section by the mine operators is cheap fuel oil and with the completion of the Arizona and California there will be a direct line from the oil fields of California.

The doctor says that of his own knowledge there are developing enterprises now going on thereabout that will aggregate over a million dollars. Besides the big enterprise of the Amalgamated Gold Mines Co., O. A. Pease and associates are conducting a large and somewhat similar enterprise on adjoining ground and many others who have been hanging on by the eyebrows for years are taking new hope and getting new life into their projects. Things are lively around Harrisburg.

The railroad is now in sight of the Oregon group of mines, one of the properties in which Mr. Geer is interested and which is ready for a mill as soon as the road is completed guaranteeing cheap freight. Near by and within five miles of the railroad line is the Mineral belt group fast approaching the milling stage of its development and another of the enterprises he has personally in charge. It has been under steady development since last July.

Six miles above Harrisburg is a promising valley through which the railroad will run and where C. S. Pratt and associates, backed by Pittsburg capital, are laying out a townsite and have already begun to build a city. They have erected a high water tank to furnish the village with water, have sunk a good well to supply it and are giving away water. There are under construction a hotel, restaurant, store, etc., and quite a tent village surrounds this nucleus of a town. The doctor says he does not know exactly what the purpose of Mr. Pratt is but it is understood he expects to spend \$50,000 the present year in improvements. Another well ten miles distant from this new town is also being sunk. Whether it is to be a mining enterprise or something else is not definitely given out but in all probability grazing will be an important feature of the enterprise for there is considerable good range there about, wanting only water for the maintenance of a large number of cattle and Mr. Pratt seems to be settling the water question by supplying it.

## DEATH ON RAILROADS

In 1898 about five hundred soldiers were killed in Cuba and about 2,500 died in hospitals. There was an outbreak of public wrath over the unnecessary death from disease that shocked the whole United States and that will be remembered as long as the Spanish American war. In 1903 almost 10,000 persons were killed and more than 75,000 were injured by the railroads of this country. If there is any public wrath about these deaths every man of the public is keeping it close with himself.

War becomes mild when compared with the human havoc wrought by our railroads. After wars there come treaties when the killing ends, but the killing and maiming on our railroads goes on year after year, every year's death record usually surpassing its predecessor.—World's Work.

## CARD FROM MR. DOUGLAS

Nacozari, Mex., Jan. 9.—Editor Journal-Miner:—As it has come to

my ears that some person, malicious or otherwise has stated in Prescott that Mr. W. Solomon was discharged from our service on account of dishonest dealing, I desire to take this opportunity of stating that Mr. W. Solomon was in my employ as stenographer, storekeeper and as chief clerk for about two and one half years and during that time, proved himself to be entirely competent and left our employ of his own free will, bearing with him the highest class of a letter of recommendation signed by myself, certifying to his competency, honesty and integrity.

As Mr. Solomon was formerly a citizen of Prescott and as I do not care to allow rumors regarding him which are utterly false, to be current, I take this opportunity of refuting them.

Yours truly,  
J. S. Douglas, Supt.

## ENTERED A PROTEST

The Territorial Teachers' association, at its recent session in Flagstaff, adopted the following resolutions in opposition to statehood:

The Territorial Teachers' association of Arizona, which represents every section and every important institution of public education in the territory, in annual session at Flagstaff, December 28-31, hereby express by unanimous voice the strongest and most urgent opposition to the union of Arizona and New Mexico in one state under any circumstances whatever. The differences of educational organization and social conditions, the size of the proposed state, and the difficulties of intercommunication between the different sections are unanswerable arguments against such union.

A. H. McClure, President.  
Mary B. Post, Secretary.

## SANTA FE WINS POINT

Phoenix, Jan. 12. (Special to Journal-Miner)—The supreme court this morning granted the application filed by Attorney T. J. Norton, on behalf of the Santa Fe Prescott and Phoenix railroad for a superedeas bond, in the litigation between the above road and the Arizona Eastern and pending the final determination of the case by the supreme court the S. F. P. & P. is given permission to operate trains over its track to the end of the line.

Under the injunction granted by Judge Doan the company was prohibited from using the track it had laid over the disputed right of way.

## SPECIAL SERVICES

Rev. and Mrs. Brood, special representatives of the national board of home missions for the Congregational church, will speak at the Prescott Congregational church next Sunday morning, afternoon and evening. For nearly twenty five years Mr. Brood labored in Kansas, at the head of the Congregational work in that state.

Mrs. Brood better known as Mrs. Caswell-Brood labored for a number of years among the Iroquois Indians and very interestingly.

At 4 o'clock Sunday afternoon a children's meeting will be held, to which all the school children of the city are invited. Mrs. Brood will speak on "My Experience as a Missionary for Seventeen Years to the Iroquois Indians." She will sing some Indian songs at the afternoon service and probably in the evening also, at the service for the general public.

Mr. and Mrs. Brood are now visiting all the important Congregational churches in the southwest.

## INSPECTED BALLOT BOX

ANNAPOLIS, Md., Jan. 13.—Chas. J. Bonaparte, the noted civil service reformer, and leader in all fights for pure elections in Maryland, was the one lone republican elector who voted in the meeting of the electoral college. The other seven votes were cast for Parker. Mr. Bonaparte despite the good natured chiding at his expense, inspected the ballot box when the votes on president and vice president were taken out. The bystanders, knowing Mr. Bonaparte's predilection for fair elections and his antipathy for tricks, were much amused.

WASHINGTON, Jan. 13.—President Roosevelt in a brief message transmitted to congress today the first annual report of the Panama canal commission, together with a letter from Secretary Taft relating to the Panama affair. He recommended that he be given greater discretion as the president is charged with the responsibility of constructing the canal. The board of commissioners, he says, should be reduced to five, or preferably to three members, whose duties, powers and salaries should be assigned by the president.

## ASSEMBLYMAN GEO. W. HULL

Talks of Coming Legislative Session

County Division Story Pronounced Bank Fake—is Opposed to Bullion Tax.

Hon. G. W. Hull, of Jerome, member elect of the territorial legislature passed through Prescott on yesterday's south bound freight train accompanied by his wife, en route to Phoenix to attend the session of the legislature which convenes next Monday. He was seen at the train by a representative of the Journal-Miner and introduced the subject of county division, stating that the recently published article in reference to it was a fake pure and simple, a baseless fabrication. He said that no talk even of county division has ever been indulged in in Jerome, much less any organized movement looking to it, and that the newspaper reporter who had written it up for publication had either drawn solely on his imagination or had been made the dupe of some practical joker.

When asked as to what he thought of the chances of passing a bullion tax law at the coming session, Mr. Hull said he had never made any canvass of the subject but did not believe that any such law would be passed.

"As for myself," he continued, "I am opposed to such a measure. What Arizona needs now is more bullion producers. Were such a law passed there would be only a few companies that it would apply to as there are not very many mines in the territory that are producing bullion to tax. Besides I am opposed to these special tax laws. I believe in taxing every one alike and in making the taxes equitable and just on all alike. I am opposed to a tax on butchers for instance while other business escapes or to taxing any business to the exclusion of others."

Mr. Hull goes to the legislature ripe with the experience he obtained as a member of the eighteenth legislative assembly and will no doubt make a very valuable member of the twenty third assembly.

## SUCCESS

Inheres in the faculty to get other people working for you. The late Thomas S. Kennedy, of Louisville, Ky., did this when, in 1845, he secured a policy in The Mutual Life Insurance Company of New York for \$5,000. Dividends to the amount of \$6,807 had accumulated on this policy, making the total amount paid by the Company \$11,807. The net premiums paid by Mr. Kennedy amounted to \$3,465.88, making the return over cost \$8,341.12. In writing for information about a policy of this kind, state what you would like to receive in cash at the end of limited payment period.
